

EDUCATION

- **IMPRS MMFD, University of Tübingen** Tübingen, Germany
Integrated M.Sc/Ph.D Programme in Neural and Behavioural Sciences; CGPA 1.68 Oct. 2022 – Oct. 2024
- **Ashoka University** Sonipat, India
PG Diploma in Advanced Studies and Research in Computer Science; CGPA 3.44/4.0 Aug. 2021 – May 2022
- **Ashoka University** Sonipat, India
Bachelor of Science in Computer Science with a Minor in Biology; CGPA: 3.58/4.0 Aug. 2018 – May 2021

TOOLS AND FRAMEWORKS

- **Programming Languages:** Python, MATLAB, C, C++, R, Apps Script
- **Frameworks:** PyTorch, TensorFlow for Machine Learning; C#/.NET for Windows app development.
- **Other Tools:** GitHub, Selenium, Excel/G-Sheets, L^AT_EX, GIMP, CORTEX.

RESEARCH EXPERIENCE

- **Waveform feature analysis, Hafed Lab, Center for Integrative Neuroscience** Tübingen, Germany
Research Intern, Supervised by Prof. Dr. Ziad Hafed Jul. 2024 –
 - Identification of functionally different macaque superior colliculus (SC) neuron types from waveform features
 - Automation of data curation pipeline & collating a large dataset of SC neurons
- **Decision making in crows, Nieder Lab, Inst. Neurobiology** Tübingen, Germany
Lab-rotation & Master Thesis Student, Supervised by Prof. Dr. Andreas Nieder Nov. 2023 – Oct. 2024
 - Master thesis: Waiting time as a behavioural correlate for decision confidence in a carrion crow
 - Lab rotation: Behavioural aspects of perceptual decision making in carrion crows
- **Serotonin in patience, Dayan Lab, MPI for Biological Cybernetics** Tübingen, Germany
Lab-rotation Student, Supervised by Dr. Kevin Lloyd Sep. 2023 – Nov. 2023
 - Evaluating an average reward RL model of how Serotonin may be modulating patience in interval timing tasks
- **Pulse protocols for DPOAEs, Gummer Lab, Tübingen Hearing Research Center** Tübingen, Germany
Research Intern, Supervised by Dr. Ernst Dalhoff Jun. 2023 – Jul. 2023
 - Testing efficacy of novel two-pulse protocols for distortion product otoacoustic emissions as a diagnostic tool for cochlear amplifier functionality
- **Single Molecule Biophysics, Haldar Lab, Ashoka University** Sonipat, India
Software Development Intern, Supervised by Dr. Debayan Gupta & Dr. Shubhasis Haldar Dec. 2019 – May 2022
 - Building and improving covalent magnetic tweezers and associated software(s) for week-long single molecule force-clamp experiments.
 - Learnt protein extraction and purification methods over Summer, 2020.
- **Neuroethology Lab, Ashoka University** Sonipat, India
Undergraduate Research Assistant to Dr. Bittu K Rajaraman Sep. 2018 – May 2022
 - Studying call pattern generation and production in *Orthopterans* using a mixture of simulations, electrophysiological and behavioral exploration, to develop circuit models.
 - Assisting senior graduate students in conducting and designing behavioral assays.
 - Experienced in field work and animal maintenance.
 - Created a spike-sorting pipeline using SpikeInterface for two-channel neural data from electrophysiological explorations on bushcrickets.

TEACHING

- **Graduate Teaching Assistant**
 - *University of Tübingen*
 - **Neurobiology Practical (Winter 2023)** , Dr. Stephanie Westendorff; Class size: 25; Tasks: Assisting 3rd year students of B.Sc Neurobiology conduct electrophysiological exploration of ground cricket auditory responses.
 - **Sensory Systems - I: The Auditory and Vestibular Systems (Winter 2023)** , Class Size: 30; Tasks: holding bi-weekly tutorials for masters students of the Graduate Training Center of Neuroscience.
- **Undergraduate Teaching Assistant**
 - *Dept. of Computer Science, Ashoka University*
 - **Theory of Computation (Spring 2022)** , Dr. Soumyottam Chatterjee; Class size: 25; Student Feedback : 4.5/5; Tasks: holding weekly office hours, setting and grading all assignments.
 - **Introduction to Machine Learning (Monsoon 2021)** , Dr. Subhashish Banerjee; Class size: 68; Student Feedback: 4.43/5; Tasks: holding weekly office hours, setting and grading all assignments, facilitating data collection for Ashoka's Faces Dataset .
 - **Algorithms Design and Analysis (Spring 2020)** , Dr. Subhash Bhalla; Class Size: 70; Student Feedback: 4.46/5; Tasks: holding weekly office hours, setting and grading all assignments.
- **Teaching Assistant**
 - *Summer School, Neuromatch Academy (Online)*
 - **Deep Learning Course (Summer 2021)** , Content by various professors from around the globe; Led 7-14 international UGs and Ph.Ds selected to participate in the *Interactive Track* of the programme; Led daily discussion sessions, taught deep learning tools from ground up on PyTorch, provided project support.

AWARDS AND SCHOLARSHIPS

- Best Student Presentation, Lab Rotation Seminar, GTC of Neuroscience, University of Tübingen
- Fully funded M.Sc in Neural and Behavioural Sciences, MPI for Biological Cybernetics
- 100% Scholarship on Tuition and Residence, Ashoka University

LEADERSHIP AND EXTRA-CURRICULARS

- **Student Representative, IMPRS MMFD**
 - *University of Tuebingen* *Mar. 2023 – Mar. 2024*
- **Mentor, Ashoka University Women in STEM**
 - *Independent, Alumni-run* *Oct. 2022 –*
 - Mentoring women and non-binary folk interested in pursuing research careers in STEM.
- **Advisor, Women in Computing Society**
 - *Ashoka University* *Sep. 2021 – Jan. 2022*
 - Head, *WiCS Workshop Weekends*; Member since 2018.
 - Led 2 *WiCS Annual Cryptic Hunts*, our flagship event.
- **Student Representative, Dept. of Computer Science**
 - *Academic Advisory Board, Ashoka University* *Sep. 2020 – May 2021*
 - Selected by the Head of Department, Dept. of Computer Science.
 - Served as primary coordinator for all student-department communication.

WORKSHOPS, CONFERENCES, SYMPOSIA

- **Animal Tracking Workshop (2025)** Organizer for collaboration underway between the IMPRS MMFD and the *Center for the Advanced Study of Collective Behaviour (CASCb)*
- **Rewilding Ethology (2024)** Workshop at the Max Planck Institute for Animal Behaviour, Konstanz, Germany (fully funded to attend by the CASCb)
- **Systems Neuroscience Symposium (2023, 2024)** Symposia at UKT Tübingen, Germany
- **No Garland Neuroscience (2020)** Conference at IISER Pune, India

OTHER RELEVANT PROJECTS

- **Modeling Forest Fires (Winter 2022):** Replicated findings in Malamud et.al, 1998 using a 2-D cellular automaton model of forest fire dynamics
- **Capstone Project - Incorporation of Deep Probabilistic Models into Data Compression (Monsoon 2021):** Project under the supervision of Dr. Mahavir Jhavar and Dr. Subhashish Banerjee, on methods to incorporate deep latent variable models into source coding for image and video data compression; special focus on Asymmetrical Numeral Systems; implemented the t-ANS codec from scratch in Python.
- **Classifier Rules for the Majority Problem (Spring 2021):** Simulated all elementary automata, studied its statistical mechanics and applications in solving the majority problem (a density classification task), both theoretically and as a proposed model to explain the less understood phenomenon of stomatal patchiness.
- **Efficient Face-Mask Detection for Syndromic Surveillance (Monsoon 2020):** Built an efficient face-mask detection tool suitable for cheap computation such as on mobile phones, webcams or CCTV cameras, so as to allow for real-time feedback into disease dynamics models.
- **Prediction of Erroneous Decision Making (Summer 2020):** Decoded neural data from Steinmetz, et. al, 2019, to predict erroneous decision making in trained mice. Used a GLM to predict whether the performance of trained mice that performed well in an 2-AUC experimental paradigm was affected by previous erroneous decisions. Project mentor: Dr. Adrien Peyrache, McGill University.
- **Modelling Call Pattern Generation in Bushcrickets (Spring 2019):** Exploratory project on call pattern generation in crickets and mechanistic models of neurons, particularly the Morris-Lecar 2-neuron model.

OTHER WORK EXPERIENCE

- **Alumni Relations Office, Ashoka University** Sonipat, India
Website & Database Administrator Mar. 2021 – Jan. 2022
 - Manager of alumni databases and the alumni web portal, with 1500+ active users.
 - Supervised interns over summer 2021 to clean data and expand existing database by scraping 980+ LinkedIn profiles to collect and organize data on all existing alumni into the largest, most comprehensive database in the history of the university.
- **The Neuroscience Outreach Network** Princeton, NJ, USA
Community Outreach & Content Coordinator Aug. 2020 – Jan. 2021
 - Project aimed at enabling access to education in neuroscience to students in underserved communities around the world.
 - Tailored virtual/classroom lessons and material for individual grade levels.
- **DiverseNeuro.org** Multiple locations, India
Student Researcher Jun. 2020
 - A collaborative research venture between IISER Pune and Ashoka University
 - Study on the international academic demographic in neuroscience, aimed at informing inclusive policy-making in academia.
